Minimum order value: 190 EUR per order

- ◆ The addresses delivered **may be used for addressing once only**. Compliance with this agreement will be checked by control addresses.
- ◆ If you would like to use the addresses supplied for addressing **more than once**, higher prices (on request) are payable.
- ◆ If you order addresses of specialist shops, please remember that the appropriate departments in department and textile stores/general line retailers could be of added interest to you.
- ◆ If you order several groups of addresses (e.g. women's outerwear retailers and men's/boys' outerwear retailers), the addresses will be delivered with no overlap in one printout. If, on the contrary, you wish separate printouts, this must be specifically stated when ordering (higher prices on request).
- ◆ The addresses are classified according to postcode areas in rising order and within the postcode areas in alphabetical order.
- ◆ Nothing changes as swiftly as addresses. The rate of change in all sectors of the economy, for example, lies at some 25% annually. The Post Office talks of 30 to 40% annual change in the total entries in their telephone directories! We keep the ITE Address File permanently up to date. In our and your own interests, therefore, we offer you an additional **returns guarantee**. For each mailing addressed from our list and returned marked undeliverable, we will reimburse your postage up to 0,55 EUR within six weeks of delivery for domestic and up to 1,12 EUR within three months for foreign addresses.
